## OFFICE POLICIES

We strongly feel all patients deserve the very best medical care that we can provide. We have prepared this material to acquaint you with our office and financial policies. **Please Initial all fields below.**

### **All Patients**

\_\_\_\_\_ A \$27.00 fee may be assessed for NO-SHOW appointments. Please call 24 hours prior to your appointment time if you are unable to make it.

\_\_\_\_\_ A \$27.00 charge will be assessed on all **returned** checks.

\_\_\_\_\_ I understand that if I fail to pay amounts owed the clinic has the right to secure an outside collection agency and/or attorney to collect unpaid debt. I understand that any unpaid debt will be reported to credit-reporting agencies. I further understand that I will be responsible for any additional charges or fees incurred by securing the collection agency or attorney ~ including reasonable attorney's fees.

\_\_\_\_\_ I understand that I am responsible for updating my information (i.e., insurance, address, phone numbers) with the clinic in order for them to be able to contact me for future appointments, refunds, etc. I understand I can do this by contacting the office directly or on the Patient Portal.

\_\_\_\_\_ I understand that if I have a pending Medicaid application and do not provide a Medicaid ID number within 30 days, I will be considered as a Self-Pay patient and responsible for any incurred charges. If you provide proof of Medicaid coverage after 30 days, your account will be switched back to Medicaid. At that point we will bill Medicaid for all charges.

\_\_\_\_\_ I understand that there is a fee for copies of my medical records. I also understand that I may use the online patient portal to receive copies of part of my medical record instead.

\_\_\_\_\_ All co-pays are due when you check-in for your appointment. All other payments are expected at the time of service unless prior arrangements have been made.

\_\_\_\_\_ In the case of **NO** insurance coverage. I understand that I am responsible for payment of services rendered to myself or my dependents **at the time of service** (unless prior arrangements have been made and approved through the office manager.)

\_\_\_\_\_ I understand that as a self-pay patient I will receive a 30% discount for medical services provided. I also understand that if I pay in full at the time of service there will be an additional 20% off medical services. (This equals 46.6% off medical fees.) If I do not pay in full at the time I check out, the additional discount will not be given.

\_\_\_\_\_ I authorize any holder of medical or other information about myself to be released to the Social Security Administration and Health Care Financial Administration, or its intermediaries or carriers, any information needed for this or any related Medicare claim. I permit a copy of this authorization to be used in place of the original, and request payment of medical insurance benefits to either myself or the party who accepts assignment. I understand it is mandatory to notify the health care provider of any other party who may be responsible for paying for my treatment. (Section 1128B of the Social Security Act and 31 U.S.C. 3801-3812 provides penalties for withhold this information.) Regulations pertaining to Medicare assignments or benefits also apply.

## WAIVER OF LIABILITY

There may be certain services that are not adequately covered by your insurance company. If the provider feels that the service is medically necessary and your insurance company denies payment, it will be your responsibility to pay for that service.

I have read and understand the payment policies listed above and agree to the terms provided.

## ELECTRONIC PRESCRIBING NOTICE

### **What is electronic prescribing? Why does your provider E-Prescribe?**

E-Prescriptions, or Electronic Prescriptions, are computer-generated prescriptions created by your provider and sent directly to your pharmacy. Your provider participated in E-Prescribing because he/she cares about your health and well-being and E-Prescribing has multiple safety benefits.

### **How does E-Prescribing work?**

Instead of writing out your prescription on a piece of paper, your provider enters it directly into the computer. Your prescription travels from your provider's computer to the pharmacy's computer. E-prescriptions are sent electronically through a private, secure and closed network, so your prescription information is not sent over the open Internet or as e-mail. Your E-Prescription arrives at the pharmacist's computer faster and may help to save you time. The E-Prescription can be sent to the pharmacy you choose. If you do not want your prescription sent electronically, or your pharmacy does not accept E-Prescriptions, your provider can print your prescriptions for you.

### **Privacy**

The privacy of your personal health information contained in all your prescriptions, whether written or electronic, is protected by a federal law and state laws. The federal law is the Health Insurance Portability and Accountability Act (HIPAA). HIPAA requires that your personal health information be shared for treatment, payment, and healthcare operations. E-Prescriptions meet this requirement.

## **PATIENT CONSENT FOR E-PRESCRIBING**

I have been made aware and understand that the medical practices and offices may use an electronic prescription system which allows prescriptions and related information to be electronically sent between my providers and my pharmacy. I have been informed and understand that my providers using the electronic prescribing system will be able to see information about medications I am already taking, including those prescribed by other providers. I give my consent to my providers to see this protected health information.
